## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The closest prior art is US Publication 2003/0233967 to Lin which teaches a substantially similar table and mounting structure. Lin does not teach a clear space between the c-shaped portions. As recited in the claims between the first elongated support member and the second elongated support member there is no portion of the mounting structure disposed therein, no portion of the mounting structure contacts the connecting members, and the bottom surface of the table is generally planar. Now Lin teaches a mounting structure that is shaped so the connecting member and elongated supports snap into it, in addition Lin teaches in multiple embodiments to use these structures as a handles. The examiner believes that there is no way to modify Lin to meet the three limitations recited about the space between the first elongated support member and the second elongated support member without teaching away from the of the support structure that Lin teaches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
